SUPPORTING THE EXTENSION OF THE SOLAR TAX CREDIT

WHEREAS, the problems of energy cost and availability demand the attention of every segment of the population; and

MEMORIALIZING THE UNITED STATES FOREST SERVICE ADMINISTRATOR TO SUPPORT ALTERNATIVE THREE OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT ON THE LAND MANAGEMENT PLAN, PART TWO, FOR THE LAKE TAHOE BASIN

WHEREAS, The Lake Tahoe Basin is an incomparable environmental and scenic resource of value to all people including the citizens of the City and County of San Francisco; and

WHEREAS, The environment of the Lake Tahoe Basin has suffered accelerated and irreversible degradation as a result of substantially increased human activity; and

WHEREAS, In particular:

1. The natural process of eutrophication of the lake as measured by the primary productivity of algae and reduced clarity has been accelerated by runoff and erosion from construction sites and paved areas and by the destruction of wetlands and other stream environment zones;
2. Vegetation has suffered from increased air pollution;
3. Wildlife habitats have been disrupted by the incursions of humans and their structures and machines;
4. Scenic values have been degraded by grading,construction, signs and traffic; and

WHEREAS, Land use planning and regulation have been largely unsuccessful in mitigating the adverse impacts of development and use of private lands; and

WHEREAS, The U.S. Forest Service as owner of 64 percent of the land in the Basin has strong powers to affect the level of human activity in the Basin; and

WHEREAS, The Lake Tahoe Basin Management Unit of the U.S. Forest Service has published a Draft Environmental Impact Statement (DEIS) on the Land Management Plan, Part 2, dated August, 1979; and

WHEREAS, THE DEIS describes and evaluates five alternatives for the future use of the lands owned and managed by the U.S. Forest Service in the Lake Tahoe Basin; and

WHEREAS, The U.S. Forest Service Administrator has recommended Alternative 5, which would provide for substantially increased use of public lands in the basin and would entail a 106 percent increase in the total number of people at one time (PAOT) and a 180 percent increase in the potential number of skiers; and

WHEREAS, Alternative 5 does not propose any additions to the National Wilderness System; and

WHEREAS Alternative 5 would have severe, adverse impacts on the quality of water, vegetation, wildlife and aesthetics; and

WHEREAS, The DEIS includes one alternative (Alternative 3) that would result in lower levels of growth than Alternative 5 and would entail only a 77 percent increase in the total number of people at one time (PAOT) and a 90 percent increase in the potential number of skiers; and

WHEREAS, Alternative 3 proposes that approximately 55,000 acres be added to the National Wilderness System, by far the largest addition of any of the alternatives; and

WHEREAS, The Administrator has established a period for public comment on the DEIS that closes October 28, 1979; therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco opposes Alternative 5 as proposed by the Administrator; and be it

FURTHER RESOLVED, That the Board of Supervisors of the City and County of San Francisco urges the U.S. Forest Service Administrator to support Alternative 3 as described in the DEIS with the reservation that it appears that even this alternative would result in substantial increases in the levels of use of the Basin with concomitant degradation of the environmental and scenic quality of the Basin; and be it

FURTHER RESOLVED, That a copy of this resolution be forwarded to Mr. W.A. Morgan, Adminstrator, U.S Administrator, U.S. Department of Agriculture, Forest Service, Lake Tahoe Basin Management Unit, P.O. Box 8465, South Lake Tahoe, California 95731, for receipt no later than October 28, 1979.
